Frontend Developer (Reactjs/Nextjs)

Domain: E-commerce

Company: BKPlus Software
Location: 26/23 Le Van Luong, Nhan Chinh, Thanh Xuan, Ha Noi
Job Type: Full-time

Company Overview

BKPlus Software is a software consulting company that partners with innovative businesses to deliver high-quality software solutions. Our founders bring over 10 years of experience working with international companies, bringing deep technical insights and global perspective to our work. Above all, we are a team of passionate developers, designers, and project managers who are committed to delivering exceptional results for our clients.

Role Overview

We are looking for an experienced Frontend Developer with strong Reactjs/Nextjs expertise to join our team. You will be working on cutting-edge solutions, collaborating with both our team and our international clients.

Key Responsibilities

- Develop, optimize, and maintain high-quality, responsive web applications using **ReactJS** and **NextJS**.
- Collaborate with backend developers, UI/UX designers, and other team members to ensure a smooth and efficient development process.
- Implement modern web development practices, ensuring scalability, performance, and security.
- Build reusable components and front-end libraries for future use.
- Debug and fix performance bottlenecks, ensuring seamless functionality across various browsers and devices.
- Stay up-to-date with the latest trends, technologies, and best practices in front-end development.
- Contribute ideas and solutions to improve product features and user experience.

Requirements

- **Experience**: **2-4 years** working with **ReactJS/NextJS**.
- Proficiency in HTML5, CSS3, JavaScript (ES6+), and TypeScript.

- Strong understanding of component-based architecture and state management (e.g., Redux, Context API, Zustand, etc.).
- Experience with responsive design and building cross-browser compatible applications.
- Familiarity with server-side rendering (SSR) and static site generation (SSG) in NextJS.
- Knowledge of RESTful APIs and integrating APIs into front-end applications.

- Familiarity with Git or other version control systems.

Good English communication skills

Soft Skills:

Strong problem-solving and analytical skills.

Excellent communication and teamwork abilities.

Self-motivated and able to work independently.

What We Offer

- **Salary: upto 30M**
- 13th-month salary bonus, seniority bonus, quarterly bonus, profit-sharing bonus
- 12 days of annual leave
- Performance-based salary reviews in June and December
- Holiday bonuses for events like April 30th - May 1st, September 2nd, New Year's Day, etc.
- Participation in social insurance according to current legal regulations
- Opportunities to work on projects with international clients, using English for client communication
- Flexible working hours, young and dynamic IT environment with a friendly and supportive team
- Monthly birthday celebrations, weekly workshops, pizza parties, holiday gifts for Lunar New Year, Women's Day (March 8th, October 20th), Mid-Autumn Festival, Children's Day (June 1st), and more
- Free office tea, snacks, and coffee; parking fee support for employees
- Equipment and tools provided to support employees in performing their work effectively
- Participation in vibrant company activities: quarterly parties, annual trips, quarterly
- teambuilding/camping, year-end celebrations, and more
